Re: Respond to Patent Official Action Summary. Patent application no. 09/373605

Dear Sir:

I have just received the official action summary dated June 27, 2005. I have attached a copy with this letter for quick reference. The reason for this late receiving of the letter is because I am currently out of the country, and my family didn't give me the letter until now when they come to Taiwan.

During the course of applying for the patent, we have exhaust a large sum of money to our attorney without any progress, and our attorney have discontinued the service and we were told that the patent is unable to be issued. As the result, I have come to Taiwan to work for a living.

After I saw the official summary, I am surprised and frustrated at the same time. Because the summary indicated that the patent is still pending, yet the time for respond is well passed the deadline.

The reason for this letter is to seek for advice as to whether the patent can be reviewed again though the time for responds is passed? Please advice, and Thank you for all your help.

Sincerely,

Sean Cheng

Continued Prosecution Application

1. The request filed on April 30, 2002 for a Continued Prosecution Application (CPA) under 37 CFR 1.53(d) based on parent Application No. 09/373,605 is acceptable and a CPA has been established. An action on the CPA follows.

Response to Amendment/Request for Suspension of Action/Withdrawal of Finality

2. Applicant's request for suspension of action as filed with the aforementioned CPA was under 37 CFR 1.103(c). Please note that a proper request for suspension of action filed with the CPA should have been under 37 CFR 1.103(b), since 37 CFR 1.103(c) applies to the limited suspension of action after a request for continued application (RCE) under 1.114 and not to the limited suspension of action in a continued prosecution application (CPA) filed under 1.53(d) like the instant application.
3. Nevertheless, applicant's request for reconsideration of the finality of the rejection of the last Office action on the basis that a final rejection should not have been issued within the three-month period following the filing of the CPA and the request for suspension of action as filed therewith is hereby granted, and the finality of that action is being hereby withdrawn.
4. In view of the finality of the Office action mailed on May 20, 2002 being removed, entry of applicant's amendment filed on July 25, 2002 is hereby being acknowledged.

Election/Restrictions

5. This application contains claims directed to the following patentably distinct species of the claimed invention: the first species or the embodiment of Figures 6A and 6B; the second species or the embodiment of Figures 7A and 7B; the third species or the embodiment of Figures 8A and 8B; the fourth species or the embodiment of Figures 9A and 9B; the fifth species or the embodiment of Figures 10A and 10B; the sixth species or the embodiment of Figures 11A and 11B; and, the seventh species or the embodiment of Figures 12A and 12B.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.

Currently, no claim is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ljiljana (Lil) V. Ciric whose telephone number is 571-272-4909. The examiner can normally be reached on Mondays through Fridays from 10:00 a.m. to 6:30 p.m.

NEW CENTRAL FAX NUMBER

Effective July 15, 2005

On July 15, 2005, the Central FAX Number will change to **571-273-8300**. This new Central FAX Number is the result of relocating the Central FAX server to the Office's Alexandria, Virginia campus.

Most facsimile-transmitted patent application related correspondence is required to be sent to the Central FAX Number. To give customers time to adjust to the new Central FAX Number, faxes sent to the old number (703-872-9306) ~~will be routed to the new number~~ until September 15, 2005. After September 15, 2005, the old number will no longer be in service and **571-273-8300** will be the only facsimile number recognized for "centralized delivery".

CENTRALIZED DELIVERY POLICY: For patent related correspondence, hand carry deliveries must be made to the Customer Service Window (now located at the Randolph Building, 401 Dulany Street, Alexandria, VA 22314), and facsimile transmissions must be sent to the Central FAX number, unless an exception applies. For example, if the examiner has rejected claims in a regular U.S. patent application, and the reply to the examiner's Office action is desired to be transmitted by facsimile rather than mailed, the reply must be sent to the Central FAX Number.
